

# COOPER POWER SYSTEMS

A Division of Cooper Electric Supply Co.

## When the Power Goes Out, Life Keeps Going.

### Don't be left in the dark.

An interruption to service can bring your household or facility to a standstill, even risk the safety of associates, customers and loved ones. As reliable as a utility power can be, you simply can't afford to gamble.

Since 1966, Cooper Power Systems, a division of Cooper Electric has provided service to millions of customers. We have 25 factory trained technicians; our sales associates are experts in engineering and have the technical assistance to supply the customer's facility or business with the appropriate back up power, rentals, and service.
